## **GLIMPSE OF MOREMI**

Known as the first protected reserve of the Okavango Delta, the Moremi Game Reserve was originally proclaimed by local residents of the Batawana tribe in 1963. This came after concerns about wildlife depletion due to uncontrolled hunting and cattle encroachment in the area. Today, Moremi is home to the most endangered species of large mammals; the cheetah, buffalo, African elephant, leopard and lion. Over 500 bird species (from water birds to forest dwellers) and over a 1000 species of plants are also recognized in the game reserve. This ecosystem is amongst the richest in Africa and thanks to effective protection across the years, the flora and fauna is relatively undisturbed.

Xakanaxa / Third Bridge is the destination for 'Glimpse of Moremi' whereby guests are treated to a 2 nights stay in Moremi with the provision of tented accommodation in true wilderness style with safari's including game drives and boat cruises.

This package includes the following;

- ✓ Camping in private camp sites
